Family agrees to pay America World for all services rendered in the amounts and according to the payment schedule listed in Addendum A, including any changes in fees or payment schedule for the country program in which they are enrolled. Family also agrees to pay annual maintenance fees as listed on the fee schedule (see Addendum A). Family agrees to pay all fees and expenses incurred in a timely manner. Family understands that in international adoption, fees can change, and that America World will notify Family in a timely manner of any changes in fees affecting Family's adoption. Family will not hold America World liable for any changes in fees. Family agrees to pay annual maintenance fees as listed on the fee schedule (see Addendum A). Family understands that third party fees and travel and accommodation fees could change while Family's adoption is in progress as these fees may vary depending on international relations, international economics, and the cost of services. America World does not charge additional fees beyond those disclosed in this Agreement. If additional fees or expenses are incurred in the foreign country, America World will provide Family with written notification of this change and will obtain consent prior to expending any funds in excess of \$1000 for which America World will hold Family

responsible. America World provides written receipts to the Family for fees and expenses paid directly by America World in the foreign country.

- B. All fees shall be paid by check or online credit card payment in the installments and at the times specified by the "Fee Schedule." Family understands that there may be a 2.5% convenience surcharge for online credit card payments.
- C. If Family fails to render payment in a timely manner and in the amounts specified, America World reserves the right to suspend the adoption until all amounts due are received, provided the suspension does not result in any action that is in any way detrimental or may not be in the best interest of a child.
- D. Family understands that in addition to the America World fees, there are separate expenses for which Family is responsible for services including, but not limited to, U.S. Immigration fees, home study and post adoption reports, foreign country adoption fees, document notarizations, certification and apostille fees, international airfare, In-Country Tour Package, U.S. Visa for child, foreign visa(s) for adoptive family, child's medical exam, tips for escorts, etc.

III. Terms and Conditions of Agreement:

- A. Christian Faith: As prospective adoptive parent(s) with America World, I/we have confessed Christ as my/our Lord and Savior and believe the following chapters from the Bible: Deuteronomy 6, John 3 & 14, Romans 10, and Ephesians 2. I/We will teach my/our children by adoption the same.
- B. No Guarantee: Family understands that America World cannot guarantee the placement of a child nor can America World guarantee any specific time frame for completion of an adoption. Efforts to adopt children from a foreign country involve circumstances often beyond America World's control. Such circumstances may interfere with, delay, or interrupt the adoption process. America World takes all reasonable precautions to anticipate and avoid such risks but cannot assure its efforts will always prove successful. Family understands and acknowledges that execution of this Agreement does not guarantee placement of a child, nor does it guarantee the successful completion of an adoption within any specific period of time.
- C. Non-Intervention/Prohibition on Child Buying: Family understands that America World is bound by the decision of country of origin's adoption authority and will not intervene to alter the decision of applicable adoption authorities, courts, and/or orphanage partners. By initialing below, the Family further understands that it is prohibited from acting outside of America World, either directly or through third parties, to contact or otherwise influence the decision of the country of origin's adoption authorities, courts, and/or orphanage partners. Such actions include, but are not limited to, unauthorized contact (including emails, calls, or in person visits) with adoption authority officials, judges, orphanage partners, and/or any other individual(s) (including personal contacts, facilitators, third party organizations, friends, and/or relatives) in an attempt to obtain information on or otherwise influence the adoption process. If Family acts independently of America World in any manner not specifically authorized by America World, America World reserves the right to terminate the family's adoption process.

Therefore, communications concerning the child, or the possibility of a child will be directed to America World and any breach thereof may be deemed by America World to be unethical behavior and a material breach justifying a forfeiture of all funds paid and immediate termination of all adoption services. While this Agreement is in effect, Family shall make no payment of any kind for adoption services or fees to any person or entity other than America World, cooperating home study agencies, government expenses or other entities as America World shall specifically designate. Family shall not obtain separate foreign legal counsel, any physician or

medical expert without prior permission from America World. This prohibition includes, but is not limited to, any official or employee of any foreign nation or orphanage, any birth parent of a prospective adopted child, and any relative or friend of or person in a position to influence such a birth parent. Any breach of the terms of this subsection is a material breach of this Agreement. America World will also report the discontinuation of services on a case to all appropriate entities, including the Central Authority.

America World prohibits its employees and agents from giving money or other consideration directly or indirectly to a child's parent(s) or other individuals, or an entity, as payment for the child or as an inducement to release the child. America World also requires Family to comply with this prohibition.

- D. Home Study: A home study is the educational and assessment process of preparing Family for and determining whether Family is suitable for adopting a child or children. The home study must adhere to the relevant laws and policies of several entities: 1) Family's state of residence; 2) the Federal Government; 3) the sending country; and 4) America World. Upon receipt of an authorized home study, it remains valid until it expires according to state, federal, or America World guidelines, whichever occurs first; or if there is a significant change in the Family's household, including but not limited to a change in residence, family composition, marital status, criminal record, or financial resources. America World's best practice policy requires a home study update every 15 months. Failure to comply with these regulations may lead to termination of the adoption agreement.
- E. Parent Education: Family understands that each adoptive parent must complete an educational program recommended by America World Staff. This educational program is designed to prepare Family for parenting a child by adoption. This may include a number of live and recorded courses, as well as required reading materials. Family understands that each adoptive parent must complete a minimum of 30 hours of pre-adoption training (40 hours if Family is adopting from Ecuador). Family understands that placement of a child depends on successful completion of this educational program. In addition, Family understands that AWAA requires additional trainings based on the type of child or children Family is seeking to adopt and their current Family situation. Family agrees to complete any trainings specified by AWAA during the home study process, at time of referral, or any other period prior to the family traveling and finalizing the adoption. Three hours of adoption related training is also required for each home study renewal.
- F. Interruption or Termination of Adoption Services: Family understands that international adoption can be an emotionally strenuous process. It is always in the best interest of both America World staff and Family to act in a professional manner. America World retains the right to terminate or put on hold for a period of time deemed appropriate by America World, all activity related to Family's adoption should America World determine Family is conducting themselves in an unreasonable or verbally abusive manner or is exhibiting unreasonable expectations related to their adoption. This is in no way an effort to discourage clients from submitting a complaint or expressing a grievance, and Families are provided with Grievance Procedures as part of this Agreement. Furthermore, if at any time during the adoption process, Family and/or America World decide to interrupt or terminate adoption services, all outstanding fees, and expenses due to America World and third parties at that time must be promptly paid. America World, in its professional judgment, will consider all circumstances in determining the suitability of interrupting or terminating the process and retains the right to terminate services at any time. Situations in which the interruption or termination of adoption services may be considered include, but are not limited to: 1) If it is found that Family provided false or misleading information to America World, governmental and/or adoption authorities in the United States or foreign country; 2) Failure to comply with America World, state or federal requirements; 3) Change in family structure, such as separation, divorce, birth or adoption of child, death of a family member, medical issues, significant decrease in financial resources or any circumstances that may render the Family no longer eligible for an adoption program; 4) Unsuccessful completion of a home study; 5) Independent action, whether taken directly or through third parties, intended to influence the adoption process.
- G. Closure or Cessation of Country's Adoption Program: Family understands that in the event that a foreign country suspends, cancels, terminates, or significantly restricts adoptions from the Country program, that America World may withdraw family from the adoption process. This includes situations in which the foreign country chooses not to authorize or re-authorize America World as an approved service provider. In any of these events, the Family's fees paid for services rendered are non-refundable.
- H. Child Health & Background: All information provided by America World regarding the child's health and background is supplied by entities and individuals abroad. America World does not conduct an independent investigation of the information obtained by such entities or individuals and, therefore, does not guarantee the accuracy or completeness of such information. America World will provide Family with all medical and social information given to America World pertaining to any child/children referred to Family. However, such information may not be complete or accurate and therefore, such child/children may have undiagnosed, incorrectly diagnosed and/or undisclosed physical, mental, or developmental problems. America World does not provide medical opinions or advice concerning the health of any referred child and Family are advised to consult a physician and/or a mental health expert experienced in international adoptions regarding any

diagnosed and/or potential medical and/or mental problems of a particular child. Other common issues institutionalized children face include, but are not limited to failure to thrive, attachment disorders, behavioral issues, cognitive impairment, sensory integration issues, unreported past trauma due to abuse or neglect, exposure to inappropriate sexuality including pornography, exposure to violence, attention deficit disorder (ADD & ADHD), and/or post-traumatic stress disorder. America World recommends that Family read material (books, magazine & web articles, and list serves) and seek out webinars and in person trainings on these subjects to educate themselves on the very real struggles orphans face. In addition, Family understands that test results for HIV, Hepatitis, Syphilis, TB, and any other disease may yield an inaccurate result for various reasons. With the above stated, Family understands that their child could arrive home with undiagnosed physical, mental, emotional, and/or developmental problems. It is the responsibility of Family at their own expense to satisfy Family of the child's physical and mental condition and medical status.

- I. Child's Future: America World cannot predict an adoptive child's future intelligence, personality, allergies, or other medical problems, learning disabilities, appearance, inherited characteristics, or any other issues that may arise in parenting a child.
- J. Impossibility: Should any act, event, or other occurrence beyond the direct control of America World operate to prevent Family from successfully adopting a child, America World shall be relieved from fulfilling any unperformed obligations under this Agreement. Such acts, events or other occurrences may include, but are not limited to acts of God, government action or inaction, the action or inaction of third parties (including courier services) and the operation or effect of judicial decrees.
- K. Post Placement and Post Adoption Reports: (See Addendum F) Family acknowledges that the completion of post placement and post adoption reports is mandatory and agrees to submit all necessary information and to complete Post Adoption reports in a timely manner as required by the foreign government and America World. Family agrees that they will be liable for any civil damages incurred by America World for Family's failure to complete required post placement and post adoption reports. Family understands that a social worker and the agency that completed the home study, where applicable, will complete these reports and visit with Family and adopted child. Fees are at the discretion of the agency performing the services. Family understands America World will provide Family with the information necessary to comply with the requirements of the foreign government and America World. Family consents to the exchange of information between America World and any third-party service provider when necessary for the completion of required post placement and post adoption reporting. In addition to completing social worker reports, Family agrees to complete any mandatory self-reports for whatever period of time is deemed necessary by the foreign government. America World will assist with the collection of such reports when appropriate and will ensure their delivery to the foreign government. Family agrees that in the event the child's adoption is dissolved and a secondary adoption takes place, Family will not finalize the adoptive placement unless ensuring the new adoptive family has agreed to pre-pay for and complete any remaining post adoption reports.
- L. Post Placement and Post Adoption Services: Family understands that America World offers post placement and post adoption support, referral, and educational resources. Support available includes a staff member educated in post adoption issues and available to consult with families for intervention options. Where there are more specific needs that America World does not offer, AWAA will make an effort to provide or arrange for counseling by an individual with appropriate skills to assist Family in dealing with the problems that have arisen. Additionally, Family understands America World may provide the Family with referrals to appropriate resources, but that it shall be the Family's sole responsibility to secure any post placement and post adoption services required. This includes, but is not limited to, the Family's responsibility to pay for any post placement and post adoption services such as counseling, therapy, residential treatment, respite care, or any other services that are needed to help meet the child's best interests.
- M. Disruption of Adoption: In the event that the placement for adoption is disrupted prior to finalization it will be the legal and financial responsibility of Family to ensure proper transfer of custody in accordance with the policies of the adoption authorities of both the United States and the foreign country. Family understands and agrees that care for and commitment to the child's best interest shall take precedence above Family's best interest. If a disruption takes place, Family will contact America World immediately regarding an impending or finalized disruption. It is Family's responsibility to inform America World as soon as possible of an impending or final disruption so that America World can assist, communicate with, and help fulfill proper legal custody and care for the child. America World shall notify, in writing, both the adoption authority in the child's country of origin and the U.S. Department of State (or their designee, such as the "Center for Excellence in Adoption Services"). If the disruption takes place in the foreign country prior to immigration to the United State, the foreign adoption authority will be heavily involved and have ultimate authority for the next temporary and permanent placement of the child, while America World will be available to the adoption authority for consultation and support as requested.

If the disruption is occurring in the United States, in determining the custody and care of a child following a disruption, Family with the assistance of America World shall seek to find a loving, healthy, and permanent family

setting for child's placement. The decision for transfer of custody will be determined in large part based upon an adoption professional's evaluation, the child's wishes, the child's age, the child's length of time in the United States, and shall seek to provide the least amount of stress and/or environmental change as possible to the child. The determination to send a child back to the child's country of origin shall be viewed as an extreme last resort, when it is determined to be in the best interest of the child and shall only be sought with the written permission of the adoption authority of the child's country of origin and the U.S. State Department. Family agrees that in the event of a disruption, America World may provide any case information (including the release of information about the child and Family) to child welfare authorities, including child protective services, so that these authorities can provide oversight and fulfill their role in ensuring children are protected. This would include cases where a child's physical custody is transferred to another party even if there has not been a disruption of the adoption. Family agrees that in the event of a disruption, America World may release information about the child and the adoption case to other caregivers of the child. Family understands that it bears the legal and financial responsibility for the transfer and care of the child until another finalized adoptive placement can be arranged. By initialing below, Family also agrees to reimburse America World for any and all expenses incurred by America World related to the transfer and care of the child following the Family's decision to disrupt the placement.

- N. Dissolution of Adoption: Family understands and agrees that care for and commitment to the child's best interest shall take precedence above Family's best interest. If a dissolution is pending or has taken place, Family will contact America World immediately regarding an impending or finalized dissolution. It is Family's responsibility to inform America World as soon as possible of an impending or final dissolution so that America World can assist. America World shall notify, in writing, both the adoption authority in the child's country of origin and the U.S. Department of State (or their designee, such as the "Center for Excellence in Adoption Services"). If the dissolution takes place in the foreign country prior to immigration to the United States, the foreign adoption authority will be heavily involved in the legal dissolution process and have ultimate authority for the next temporary and permanent placement of the child, while America World will be available to the adoption authority for consultation and support as requested.

If the dissolution takes place in the United States, in determining the custody and care of a child following a dissolution, Family with the assistance of America World shall seek to find a loving, healthy, and permanent family setting for child's placement. The decision for transfer of custody will be determined in large part based upon an adoption professional's evaluation, the child's wishes, the child's age, the child's length of time in the United States, and shall seek to provide the least amount of stress and/or environmental change as possible to the child. Family agrees that in the event of a dissolution, America World may provide any case information (including the release of information about the child and Family) to child welfare authorities, including child protective services, so that these authorities can provide oversight and fulfill their role in ensuring children are protected. This would include cases where a child's physical custody is transferred to another party even if there has not been a dissolution of the adoption. Family agrees that in the event of a dissolution, America World may release information about the child and the adoption case to other caregivers of the child. Family understands that it bears financial responsibility for the transfer and care of the child until another finalized adoptive placement can be arranged. By initialing below, Family also agrees to reimburse America World for any and all expenses incurred by America World related to the transfer and care of the child following the Family's decision to dissolve the placement.

- O. Confidentiality of Referrals: Family understands that all referral information is confidential and agrees to refrain from sharing any information about the child, including photographs, with others outside of the referral review process while waiting for final approval. America World prohibits the posting of this information on newsletters, blogs, chat groups, Facebook, or any other public forum prior to the family receiving approval from the country adoption authority. If the Family declines a referral, the Family agrees to delete all electronically stored referral information and destroy any paper copies of the same.
- P. Confidentiality/Release of Information: America World ensures that personal information gathered or transmitted in connection with an adoption is used only for the purposes for which the information was gathered and safeguards sensitive individual information. Family authorizes America World to release copies of and fully discuss only information gathered and safeguards information. This may include cooperating and partner agencies, government(s), and adoption authorities and personnel either in the United States or in a foreign country. This permission includes, but is not limited to, partner home study agencies, adoption advocacy organizations, couriers, travel professionals, translators, interpreters, attorneys, financial auditors, agency accrediting entities, orphanages, orphan care ministries, and all other organizations and individuals who may assist Family in their adoption process. If Family is a married couple, Family also authorizes America World to disclose and discuss any information provided to America World by one spouse with the other spouse. Family acknowledges that information released could include confidential information that generally would not be released apart from this consent. Family acknowledges and consents to America World's policy of full cooperation with any state agency investigating reports of alleged child abuse, neglect, or maltreatment. In such cases, America World

will furnish the state authority with all requested information on the Family and child by adoption and may do so without Family being aware.

- Q. Copy or Electronic Form: In order to provide timely adoption services to Family, America World will conduct certain processes by electronic means. The term "electronic means" includes, but is not limited to, email, facsimile (Fax), photocopies, and Portable Document Format. America World may also maintain client information in an electronic format. Family acknowledges that, in accordance with the laws of the Commonwealth of Virginia and the Uniform Electronic Transactions Act (UETA), a copy or electronically stored or generated version of this Agreement and any other document executed in the course of providing adoption services to Family shall have the same legal status as the original.
- R. All schedules, attachments, and addenda, as noted above, are considered to be part of the original content of the contract and are agreed to by Family.

IV. Risks of Travel

Family realizes that travel is a risk and will provide America World a copy of the exact flight number and travel plan of each family member before Family travels to and from the country. In the event that Family is required, or elects, to travel to the sending country for adoption-related purposes, the following provisions apply:

- A. America World cannot ensure the safety of Family when traveling in the U.S.A or overseas. All travel involves risks of crime and accident. Travel to a foreign country may involve additional risks and hardships, including but not limited to, exposure to illness or disease, unsanitary or unsafe food and water, inadequate or non-existent medical and dental services, and political instability. Family should consider all details before traveling overseas or considering a program that requires travel abroad.
- B. America World strongly suggests that Family travel with another adult, if spouse is not traveling, when on an adoption trip. America World also strongly suggests against taking children under 14 with Family on adoption trips or taking persons with known health risks or needing special assistance on adoption trips.
- C. Family will be solely responsible for paying all costs of any and all travel and travel activities of Family and the child including, but not limited to: airfare, airport taxes, exit fees, accommodations, meals, taxis, entertainment, guides, sightseeing, and travel insurance, delay costs, change costs associated with unknown delays and inconveniences. Family shall be solely responsible for obtaining and paying for their own passport and/or travel visa. Family agrees and understands that America World is in no way responsible to reimburse Family for travel expenses for Family or anyone traveling with Family, whether or not the adoption finalizes or not or regardless of number of trips to accomplish the adoption.
- D. America World may recommend travel agents, visa service companies, guides, airport greeters, or accommodations in order to assist Family in their overseas visit. Family acknowledges that any such travel agents, greeters, or guides that are not the agents or employees of America World are not and cannot be guaranteed or assure the cost, reliability, or availability of those arrangements.
- E. Family understand and agree as follows:
- (1) That there are risks of travel.
 - (2) That "travel" includes, but is not limited to, traveling at a certain time, by way of a certain destination, or by a certain means of transportation.
 - (3) That the "risks of travel" include, but are limited to, war, terrorism, political or social conflict, illness including medical diseases or outbreaks, delay, inconvenience, and negligence of transportation providers, accidents, and medical emergencies.
 - (4) That Family assumes all risks of travel and shall not recover from America World for any expense, loss or harm resulting from the risks of travel.
 - (5) That when America World notifies Family that it is time for the parents to travel to visit a child, America World is not making any representation regarding the safety or advisability of travel, and is not responsible for any expense, loss or harm resulting from the risks of travel.
 - (6) That this Agreement shall be enforceable by and against the executors, administrators, heirs, agents, representatives, employees, and successors of the parties to this Agreement.
 - (7) Family has been advised by America World to purchase travel insurance which may cover loss in the event of an accident or medical emergency including air-evacuation while on trip.
 - (8) Family has been advised by America World to purchase fully refundable and changeable tickets in the event of delayed or cancelled travel.

- (9) Family has been advised that traveling alone is not suggested. It is very helpful to have the support and assistance of a traveling companion. Single parents should consider bringing a friend or family member with them while traveling abroad.
- (10) Family has been advised to check the status of the immunizations for every family member or friend who is planning to travel.
- (11) Family has been provided with the link to the CDC website and advised to speak to its local health department about recommended vaccinations. www.cdc.gov, traveler's health link.
- (12) Family shall check the CDC website for current information on outbreaks in the areas of child's country.
- (13) Family has been advised to seek America World representative in case of an emergency.

V. Hold Harmless/Release of Liability

- A. America World will attempt to place a child with Family. However, Family understands that America World does not warrant or guarantee a child will be placed with Family or that Family will be approved, qualify, or accepted to adopt in any foreign country. America World shall not be held liable if, for any reason other than the intentional or reckless misconduct of America World, Family fails to be accepted or qualify as an adoptive parent.
- B. America World does not and cannot warrant or guarantee the physical, psychological, developmental, or mental health of a child. Family acknowledges and agrees to hold America World harmless and free of any cost, prejudice, or judgment which they may be entitled to or indemnification or contribution for the care of the child arising from any physical, mental, or emotional defect in said child or injury to or death of said child.
- C. Family understands that the America World does not warrant or guarantee the good faith performance of any person, persons, agency, or institution not supervised by America World in USA, or any agents outside the United States that are not employees or supervised by America World. Family agrees to hold America World free and harmless from any loss which may arise from the negligence or intentional misconduct of any persons involved in the placement with the exception of America World, including negligence or intentional misconduct of the orphanage or persons working with a child or the adoption process. It is further understood that any loss of convenience arising from policies, procedures, or requirements of the government of the United States or the government of any other country or any loss resulting from cultural, acts of God, religious or social practices or medical crisis of any other country or pandemic will not be imputed to America World and Family waives its/their right of contribution or indemnification or refund for any monetary loss resulting therefrom. Family understands that America World has no direct control over foreign or US governments, their changes in laws concerning adoption, complete closures of adoptions in their country, or other such happenings. Family will not hold America World responsible for the adoption being slowed down, postponed, or canceled because of such actions or conditions mentioned above. Family understands that a child referred may be lost due to but not limited to: birth family returning, national domestic adoption, foster placement or the death of a child, central authority withdrawing referral for various other reasons, change in local country law, USCIS law or US law.
- D. Family understands that undiagnosed physical, developmental, emotional, and mental special needs are common in international adoption, including but not limited to the following inherent risks:

• HIV, AIDS • Fetal Alcohol Syndrome • Fetal Alcohol Effect • Cleft lip/Cleft palate • Short, missing, or deformed limbs • Giardia • Syphilis • Tuberculosis • Chickenpox • Respiratory Infections • Post-traumatic Stress Disorder, Post-Institutional Care Systems • Post-traumatic Stress Disorder • Attachment Disorders • Speech and Language Delays • Vision Impairment/loss • Cerebral Palsy, Hernias • Decayed Teeth	• Hepatitis B, Hepatitis C • Failure to Thrive • Hearing Problems • Extra or joined fingers or toes • Intestinal Parasites • Salmonella • Rickets • Measles • Ear Infections • Developmental Delays • Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder • Sensory Integration Disorder • Deafness • Sexual and Physical Abuse • Neurological Abnormalities • Reactive Attachment Disorder
--	--

- E. Family understands that America World does not warrant or guarantee the physical or mental health of the child as described in the referral materials provided by the sending country. Family assumes such risk.

Family understand that children placed for international adoption are commonly the victims of trauma including but not limited to institutional trauma, sexual abuse, physical abuse, psychological abuse, or a combination of any and that these traumas may not be described in the child's referral documentation. In addition, there may be a lack of available medical information due to the fact that the children may have been abandoned at birth or early in life or removed from a home environment from which it can be difficult to obtain valid family background information.

Children may have been physically, mentally, or sexually abused, and/or neglected (even in the foster home or orphanage setting). Many children come into adoption with unknown, undiagnosed, or unreported physical, emotional, or behavioral conditions and developmental delays. Family assumes all such risks. Family understands that America World does not and will not make a representation or warranty, expressly or implied, concerning the medical or psychological condition of any child. Family agrees and acknowledges that America World is not and cannot be responsible for any such conditions. Any medical examinations, tests, histories of a child may have declared the child healthy, or mild special needs and may not be accurate. Family understands and acknowledges that none of these documents guarantee a healthy or mild special needs child. America World cannot guarantee the results or accuracy of any evaluations, medical tests or assessments performed on the child. Family assumes such risk. America World makes reasonable attempts at requesting missing information or asking the foreign authorities for updated or further information. All information which America World receives from the foreign authority will be given to Family.

Family acknowledges that for reasons out of the control of America World, full child information documents from authorities in a foreign country may not be given to America World. These documents or information may or may not be provided to Family after the placement of the child with Family. Family acknowledges that this does not indicate negligence on the part of America World.

- F. America World does not and cannot investigate or confirm the information obtained or provided from a foreign country related to the referral of a child. The information obtained or provided may be inaccurate and/or incomplete. Family has been informed that there are inherent risks due to incomplete or unreliable testing in foreign countries. Family has had the opportunity to discuss the medical, emotional, and psychological risks with a physician of its choice and has the right to request the child to be examined and tested by a physician of its choice, should Family choose to do so. Family understands that the cost of this examination will be Family's financial responsibility. Family understands that some tests will not be available in all countries. America World makes every effort to request current and additional information that may be missing and provide that information as America World receives the updates.

Translations of documents from English to foreign languages and from foreign languages to English may be inaccurate. America World does not guarantee, and makes no warranty, express or implied, concerning, the accuracy, validity, applicability, or completeness of any information, medical, prenatal, psychological, historical, or other records or data regarding any child. Family assumes such risk.

- G. Family acknowledges and understands that although America World can arrange for an exam, America World does not actually conduct any assessment, testing, or evaluation of a child and can only transfer the information to Family. Additional tests Family may request are at the expense of the Family. Family further understands and releases America World and holds America World harmless from any and all responsibility or liability for any type of injury, harm, damage, or loss in any way relating to or arising out of the physical, psychological, or emotional condition of any child referred to, placed with or adopted by Family, regardless of when such injury, harm, damage or loss is known or discovered. Family assumes such risk.
- H. In the event a country suspends or stops foreign adoption or removes approval of Family or referral of the child is no longer permitted, or Family no longer qualifies for the program due to changes in Family's circumstances, the program fees received by America World and not sent or due in the country according to the financial agreement will be refunded according to the America World's refund policy. Any fees already sent to the country are not refundable. International adoptions are in great part controlled by the foreign government, its political infrastructure, and its relationship with the United States. Family assumes all such risks.
- I. Acknowledged and Agreed:

Family has been informed and acknowledges that international adoption is a complex process often subject to delays and unforeseen expenses. Predicting the exact costs that a family will face in international adoption is difficult due to its unpredictable nature. However, America World considers the fee estimates provided to be realistic. While America World aims to adhere to a consistent fee structure, unforeseen rises in our costs might require an increase in our fees. America World will notify Family in a timely manner of any changes in fees affecting Family's adoption.

AWAA has a policy to not customarily charge additional fees and expenses beyond those disclosed above. Nonetheless, third-party fees associated with the adoption are subject to change at any time. If unforeseen additional fees and expenses are incurred in the foreign country, AWAA will only charge such additional fees and expenses under the following conditions:

- 1) AWAA will disclose the fees and expenses in writing to the prospective adoptive parent(s).
- 2) AWAA will obtain the specific consent of the prospective adoptive parent(s) prior to expending any funds in excess of \$1,000 for which AWAA will hold the prospective adoptive parent(s) responsible.
- 3) AWAA provides written receipts to the Family for fees and expenses paid directly by America World in the foreign country and retains copies of such receipts.

Family agrees to pay all additional expenses associated with the adoption.

Family understands that the payment of fees in no way guarantees the placement of a child. As previously disclosed to you in your Adoption Agreement, efforts to adopt children from a foreign country involve circumstances often beyond America World's control that may interfere with or interrupt the adoption process. Such events may include, but are not limited to acts of God, government action or inaction, the action or inaction of third parties, the reappearance of a birth parent, and the operation or effect of judicial decrees. Many known risks have been disclosed to you here, and in your Adoption Contract. Family freely assumes the risks associated with efforts to adopt internationally, as disclosed herein and in the Adoption Agreement, and will not hold America World responsible for any event resulting in the delay or termination of the adoption process. If the adoption process is terminated for any reason, at any time during the process, refunds (if any) will be subject to America World's refund policy, as described herein.

By signing below, we, the adoptive family, agree to pay the fees enumerated herein as well as any additional third-party expenses that may arise during our adoption.

Grievance Procedure

Name(s) _____

America World is committed to the continual improvement of our services. We highly value the opinions of others, and we want to honor God by being good stewards of the work He has entrusted to us. Prospective and Adoptive parents, birth parents, adoptees, or any other person affected by the services and activities of America World, have the right to lodge a complaint directly with America World regarding any issue or aspect of the agency's work (including those related to America World's use for supervised providers) that he or she believes raise an issue of compliance with the Hague Adoption Convention, the Intercountry Adoption Act, the Universal Accreditation Act, or the implementing regulations. Below are steps that should be followed if you have a grievance arising out of the services provided by America World:

- 1) To submit a complaint, we have provided a "Grievance Procedure Form" to facilitate the complaint submission. Please request a copy of this form if you cannot find the one you were provided. Complainants are also welcomed to submit a complaint in any written format via email, letter, or in person. Complaint should be physically or electronically signed and dated.
- 2) Submit the complaint directly to the staff person complainant has concerns with, a Family Coordinator, or a Program Director. You are welcome to attach any evidence (i.e., faxes, emails, letters, bills, etc.).
- 3) America World's Performance and Quality Improvement (PQI) Team will review the complaint and propose a response and resolution within 30 days of receipt. America World will provide an expedited review if it is determined that the complaint is time-sensitive or involves an allegation of fraud. The proposed resolution will be presented in a formal, signed letter.
- 4) If complainant is dissatisfied with the response and proposed resolution, complainant may request another review of the matter by filing a second Grievance Procedure Form. America World's CEO and Board of Directors will review the second grievance and provide a written response within 30 days.
- 5) If complainant is dissatisfied with the response from the CEO and Board, complainant may file a complaint directly with the U.S. Department of State's "Hague Complaint Registry," accessible at the following link: [here](#).

America World's Performance and Quality Improvement (PQI) Team

America World's PQI Team drives the ongoing quality improvement initiatives at America World and manages the complaint process. The PQI team meets regularly to review agency and stakeholder data to identify trends and propose opportunities for systemic improvements. The PQI Team maintains a written record of each complaint received and the steps taken to investigate and respond to it. America World makes these records available to the accrediting entity or the Secretary of State upon request. The PQI Team provides to the accrediting entity and the Secretary of State, on a semiannual basis on April 1 and October 1, a summary of all complaints received during the preceding six months. The information provided includes the number of complaints received, how each complaint was resolved, an assessment of any discernible patterns in complaints, and information about the systemic changes made or planned by the agency in response to such patterns.

Refund Requests

If you solely have a request for a refund that falls outside our standard Refund Policy and Procedures and have no intention of filing a complaint with the agency, please direct your refund request to your agency representative. The request will be managed by the Program Director and you will be provided with a final written determination within 30 days. At any point during or after the refund request process, you are welcome to file a complaint using the above procedures. If your refund request includes any communication that appears to be a complaint about the agency or its supervised providers, it will be treated as a complaint and will follow the procedures above.

All complaints will be handled in a professional and Christ-honoring manner. America World expressly prohibits any actions intended or appearing to discourage a client or prospective client from or retaliate against a client or prospective client for: making a complaint; expressing a grievance; providing information in writing or interviews to an accrediting entity on the agency's performance; or questioning the conduct of or expressing an opinion about the performance of an agency. No adoption process will be negatively impacted if you choose to take advantage of the grievance process. It is our hope that all parties involved will be satisfied that their concerns are understood, and any issues are resolved.

AMERICA WORLD ADOPTION

America World-Virginia Home Study Agreement

The following is an Agreement between _____ (Herein after "Family") and **America World Adoption Association-Virginia**. (Herein after "AWAA-VA") for the provision of adoption related services. AWAA-VA is an affiliate of America World Adoption Association Corporate office located in McLean, VA.

Definitions:

Additional Document Fee: In certain instances, it is necessary for the Home Study Coordinator to prepare and execute additional documents requested by the country/region the dossier was submitted in. See page 6 for Social Service Fees.

Additional Meetings: Occasionally, it may be necessary for the Home Study Coordinator to conduct additional meetings with Family during either the home study or post adoption/post placement phase. Your Home Study Coordinator will advise you if and when this is necessary. See page 6 for Social Service Fees.

Client Grievance Form: Family can request from AWAA-VA a client grievance form upon which Family can formally issue a complaint against AWAA-VA. The grievance will then be reviewed by the AWAA Performance & Quality Improvement (PQI) team and a response will be sent to Family within 30 days. See Addendum C-Grievance Procedures & Form.

Disruption: A disruption is an adoption process that ends after the child is placed with Family and before the adoption is legally finalized resulting in a new placement for the child.

Dissolution: A dissolution occurs when the legal relationship between Family and the adopted child is severed, either voluntarily or involuntarily after the adoption is legally finalized, resulting in a new placement for the child.

Home Study: A home study is the educational and assessment process of preparing Family for and determining whether Family is suitable for adopting a child or children. The primary purpose of a home study is to ensure that Family's home will be a safe, nurturing, capable and healthy environment for placement of a child. The other purpose is to help prepare Family for the placement of a child by adoption. See page 6 for Social Service Fees.

Home Study Coordinator: The Home Study Coordinator is an employee of AWAA-VA. This person completes the home study and post adoption/post placement reports and provides other social services. A Home Study Coordinator is qualified to determine if Family's home is suitable for the placement of a child and can provide guidance to Family concerning their adoption.

Home Study Update: A Home Study Update is the process of re-evaluating a Family for adoption either after a period of time has elapsed or if there are any changes in Family's home prior to the placement of a child. Time periods vary per individual state and/or USCIS requirements. Changes include but are not limited to home, lifestyle, health or financial situation or the type of child Family is requesting to adopt. Your Home Study Coordinator will notify you if an update is required. A visit in Family's home may be required. See page 6 for Social Service Fees.

Post Adoption Deposit: Post adoption deposits are refundable fees paid to America World Corporate to ensure timely submission of post adoption reports (refunds are based on timely submission). The refundable post adoption deposit is paid in addition to the pre-paid post adoption fees. See page 6 for Social Service Fees.

Post Adoption Reports: Post adoption reports, written by Home Study Coordinators are required after an adoption is finalized in the country of origin according to a schedule determined by the country. Should the country of origin not have a requirement for post adoption reports, America World requires at least two post adoption reports within a year after placement. See page 6 for Social Service Fees.

Post Placement Reports: Post placement reports, written by Home Study Coordinators are required when the adoption was not finalized in the country of origin according to a schedule determined by the country. See page 6 for Social Service Fees.

Re-adoption: Re-adoption is the term used to describe the adoption of a child in the United States after the child has already been adopted by Family in the foreign country of origin. Some states require a separate written court report if Family is re-adopting their child(ren) in their state. See page 6 for Social Service Fees.

Travel Fee: Travel fees are charged to Family depending upon the distance Family lives from the Home Study Coordinator or in some cases the local America World office. Travel fees include the travel time and mileage (meals and hotel expenses, when applicable) of the Home Study Coordinator. See page 6 for Social Service Fees.

USCIS: United States Citizenship and Immigration Services

AWAA-VA will provide the following services to Family:

- AWAA-VA will provide adoption-related social services for Family. As applicable to the Family, AWAA-VA may provide home study and/or post-placement/post-adoption services. Social Services will be performed in compliance with the requirements of AWAA-VA, the Family's state of residence, the sending country, and USCIS.
- Home study approval is at the full and final discretion of AWAA staff. Payment and acceptance of social services fees, including applicable educational and assessment services, does not guarantee approval for adoption. AWAA-VA also reserves the right to postpone, suspend, or terminate the adoption process, or refer Family for counseling services. The home study process may lead to a denial of Family's application to adopt or revision of the type of child Family is seeking to adopt. Family will be informed in writing of AWAA-VA's recommendation and outcome of home study process.
- AWAA-VA will keep Family informed of the progress of their home study, provide estimated time frames for its completion, and respond to questions about the social services provided.
- After placement of a child, the Home Study Coordinator meets with Family and writes post adoption/post placement reports that indicate the progress of the adopted child in the home. Post adoption reports reflect an evaluation and adoption-related guidance. Post placement reports also include supervision of the placement until finalization. The number and length of reports are determined by the country of origin. See *Addendum H*. The Home Study Coordinator will not provide professional counseling services but will refer Family to a certified professional counselor if such services are required.
- AWAA-VA will also be available to consult with Family should they have difficulties during post adoption/post placement. This may include guidance on parenting their child, recommendations for educational material, referrals to a support group, or a recommendation to seek the services of a third-party professional. AWAA-VA will not take custody of the child in the event of a disruption or dissolution, but America World staff will assist Family in determining a plan for the child. See *original agreement for more information on disruptions/dissolutions*.
- AWAA-VA employees will always strive to comply with professional and ethical standards consistent with orthodox biblical principles and Christian beliefs and lifestyle as well as all applicable state and federal laws. AWAA-VA staff will always treat Family in a respectful fashion.

AWAA-VA requires that Family will:

- Pay all required fees before services are rendered as detailed in page 6 of this Agreement. It is the policy of AWAA-VA for Family to pre-pay for post placement/post adoption reports prior to finalization of the home study.
- Submit all requested documentation to AWAA-VA within 30-90 days after receipt of the Home Study Guidelines or other appropriate application. Failure to do so may result in additional fees or AWAA-VA terminating this agreement.

- Promptly notify the Home Study Coordinator of any changes to the information and documentation provided to AWAA-VA.
- Adhere to the relevant laws and policies of several entities: 1) Family's state of residence; 2) the Federal Government (if applicable); 3) the sending country; and 4) AWAA-VA. Upon receipt of an authorized home study, it remains valid until it expires according to state, federal, or AWAA-VA guidelines, whichever occurs first; or if there is a significant change in the Family's household, including but not limited to a change in residence, family composition, marital status, criminal record, or financial resources. AWAA-VA's best practice policy requires a home study update every 15 months. Failure to comply with these regulations may lead to termination of the adoption agreement.
- Be available to meet with the Home Study Coordinator for four interviews on at least 3 separate dates. The first meeting may be an orientation session that may include other families. The location of the orientation meeting will be determined by AWAA-VA. The orientation meeting is required even if Family has completed a home study on a previous occasion. At least one of the four interviews is required to be in Family's home, with additional meeting locations to be determined at the discretion of AWAA-VA. Each member in the home will be interviewed (as age-appropriate) and must complete all requirements listed in the AWAA-VA Home Study Guidelines. In addition, children under 18 living with a custodial parent who is the former spouse of a member of Family, and/or any adult children, will be interviewed in person or by phone.
- Complete an educational program recommended by America World Staff. This educational program is designed to prepare Family for parenting a child by adoption. This may include a number of live and recorded courses, as well as required reading materials. Family understands that each adoptive parent must complete a minimum of 30 hours of pre-adoption training (40 hours if Family is adopting from Ecuador). Family understands that placement of a child depends on successful completion of this educational program. In addition, Family understands that AWAA requires additional trainings based on the type of child or children Family is seeking to adopt and their current Family situation. Family agrees to complete any trainings specified by AWAA during the home study process, at time of referral, or any other period prior to the family traveling and finalizing the adoption. Three hours of adoption-related training is also required for each home study renewal.
- Notify AWAA-VA two months in advance of the time each post adoption report is due, to set up an appointment for the post adoption visit. Family may receive a reminder from AWAA of the impending due date, but it is Family's responsibility to keep track of and schedule the appointment. Family will provide all necessary documentation to the AWAA-VA Home Study Coordinator to enable the Home Study Coordinator to complete the report in a timely manner as required by AWAA and the country Family is adopting from. See *Addendum H-Post Adoption Agreement*.
- Family agrees to act in a professional manner at all times and in all interactions, abstaining from unreasonable conduct and verbally abusive language. If Family believes they have been treated inappropriately by AWAA-VA staff or a representative, Family has the right to file a grievance. See *Addendum C – Grievance Policies and Procedures*.

Ownership of Social Service Reports:

Any home study, post adoption/post placement report, update or other social service report prepared for Family by AWAA-VA is the sole property of AWAA-VA and cannot be copied, disseminated, or used in any other way, except for the use in the current adoption process, without the written permission of AWAA-VA.

Interruption or Termination of Services:

Family understands that international adoption can be an emotionally strenuous process. It is in the best interest of both AWAA-VA staff and Family to act in a professional manner at all times. AWAA-VA retains the right to require Family to engage in counseling, or to require postponement, suspension, or termination of the adoption process and this Agreement should AWAA-VA determine Family is conducting themselves in an unreasonable or verbally abusive manner or is exhibiting unreasonable expectations related to their adoption. This is in no way an effort to discourage clients from submitting a complaint or expressing a grievance, and Families are provided with

Grievance Procedures as part of this Agreement.

This Agreement shall automatically be terminated if AWAA-VA determines that Family knowingly provided false information or purposely withheld information for the purposes of a home study, post placement, post adoption or other social service report, or Family otherwise fails to abide by the terms of this Agreement. If terminated, AWAA-VA will notify family in writing of the circumstance and date of termination.

Release of Information:

Family authorizes AWAA-VA to release copies of and fully discuss any relevant and necessary information provided to AWAA-VA by Family to individuals and entities for the purposes for which the information was gathered. This may include cooperating and partner agencies or government(s) or adoption authorities and personnel either in the United States or in a foreign country. If Family is a married couple, Family also authorizes AWAA to disclose and discuss any information provided to AWAA by one spouse with the other spouse. Family acknowledges that information released could include confidential information that would not be released apart from this consent.

Family acknowledges and consents to AWAA's policy of full cooperation with any state agency investigating reports of alleged child abuse, neglect, or maltreatment. In such cases, AWAA will furnish the state authority with any and all requested information on Family and child by adoption.

No Guarantee of Approval / Limitation of Liability:

Family understands and acknowledges that the payment of the fees provided herein are solely in consideration for the services described in this Agreement, and that nothing in this Agreement is to be construed as a promise or guarantee of Home Study approval, that Family will qualify for an adoption program, or that Family will be able to adopt a child. Family further understands, acknowledges, and agrees that in no case shall AWAA-VA's liability to Family arising out of this Agreement and the subject matter thereof exceed the amounts paid by Family to AWAA-VA hereunder. Furthermore, Family hereby releases and holds harmless AWAA and AWAA-VA from any liability arising out of and/or relating to Family's failure to qualify for an adoption program and/or the discontinuance of the adoption process should AWAA or AWAA-VA determine, in its sole discretion, that Family does not qualify and/or no longer qualifies for adoption based on AWAA-VA's review of Family's circumstances and/or any change in Family's circumstances. Family acknowledges and agrees that it has been informed of many risks inherent in international adoption, and that as a result of those risks, AWAA and AWAA-VA cannot guarantee that the adoption will be completed. Family agrees that it has previously released AWAA, and now releases AWAA-VA, from any liability and/or losses arising out of and/or relating to the risks inherent with international adoption as previously disclosed to Family orally by AWAA and AWAA-VA and also as set forth in the Program Agreement and its related addenda, including without limitation the cessation of the adoption process based on any of those inherent risk factors.

Headings:

The section headings in this Agreement are for the convenience of both AWAA-VA and Family and are not to be considered in the interpretation or understanding of this Agreement.

Non-Waiver:

The failure of AWAA-VA to enforce any provision in this Agreement shall not be construed as a waiver of AWAA-VA's right to subsequently enforce every provision of this Agreement.

Dispute Resolution:

The parties to this Agreement recognize that conflicts or disputes may occasionally arise. If any dispute cannot be resolved in private meetings, the parties agree, as an alternative to litigation, to enter mediation to take place in-person in McLean, VA before a third-party neutral listed among the roster of mediators with the Institute of Christian Conciliation (<https://www.aorhope.org/reconcilers>). If mediation is unsuccessful, the parties agree to legally binding arbitration in accordance with the *Rules of Procedure for Christian Conciliation* of the Institute of Christian Conciliation, (complete text of the Rules is available at <https://www.instituteforchristianconciliation.com/rules/>). The parties agree that the arbitration will take place in Fairfax County, VA. The parties further agree to the exclusive and mandatory personal jurisdiction of any state or federal court located in the Commonwealth of Virginia for purposes of resolving any dispute that is not subject to arbitration and/or to enforce any arbitration award, with venue

proper only in Fairfax County. The parties understand that these methods shall be the sole remedy for any controversy or claim arising out of this Agreement or the subject matter hereof, and expressly waive their right to file a lawsuit or claim against one another for such disputes, except to enforce an arbitration decision.

Financial Disclosure

Family hereby employs AWAA-VA to provide home study, post-placement, and/or post adoption services to assist them in their adoption efforts, and agrees to the following financial terms and conditions:

- All fees shall be paid by check or online credit card payment prior to services rendered as detailed on page 6 of this agreement. Family understands that there may be a 2.5% convenience surcharge for online credit card payments.
- Family agrees to pay all fees and expenses incurred in a timely manner. Family understands that over time fees can increase, and that AWAA-VA will notify Family in a timely manner of any changes in social service fees. Family will not hold AWAA-VA liable for any changes in fees. AWAA-VA does not customarily charge additional fees beyond those disclosed in this Agreement and as further set forth in **Addendum A** to the Program Agreement.
- AWAA will refund any fees directly to Family via check or credit that Family may be entitled, within 60 days of the completion of services.
- If either Family or AWAA-VA terminates the home study process, AWAA-VA will refund a portion of the home study fee according to the following terms:
 - ❖ 40% Refund if prior to first visit (including Orientation)
 - ❖ No refund after first visit
- If Family provides false information, fails to truthfully disclose requested information, or in any way puts AWAA-VA and its interests at risk, AWAA-VA retains the right to terminate its services.
- Payment and acceptance of Home Study Fee is in no way to be understood as an adoptive home study approval. AWAA-VA retains the right to revoke the home study approval at any time prior to the placement of a child and adoption is finalized. It is understood that if an adoptive home study approval is revoked, the payment for the home study services provided is non-refundable.

By signing this form, I acknowledge that I have read and understand this entire Agreement including the attached Fee Schedule. I agree with all the terms and conditions and will fully comply with all these standards. This Agreement contains the full and final agreement between Family and AWAA-VA and is being signed voluntarily without reliance upon other promises or representations.

Ecuador Program Referral Agreement

- I. We, _____ [Family], having been provided with a referral of (Child's Name, DOB, gender) by America World Adoption Association, hereby acknowledge and agree:
- a. Referral Information. America World provided us with all biographical, medical, and other relevant information, on the child(ren) we were referred. We acknowledge that, as stated in the paragraph entitled "Child Health & Background" in the original Program Agreement we entered into with America World, all referral information provided to us by America World is supplied by individuals and entities abroad and, as such, may be incomplete and/or inaccurate. As all information is gathered abroad, we recognize that the techniques and methods used to gather such information may not be comparable to U.S. standards. Accordingly, we understand that America World cannot guarantee the accuracy or completeness of such information, which includes, but is not limited to, social history, age, health, developmental level, and/or physical/mental impairments.
 - b. Referral Updates. America World may receive, from time to time, updates on the referred child(ren) from his/her caretakers in the country of origin. Such updates are often compiled by individuals or entities independent of America World. Accordingly, America World cannot guarantee the accuracy or completeness of any referral update provided. **We agree to release and hold harmless America World and its officers, employees, volunteers, and other agents from any and all liability related to incomplete or inaccurate information contained in referral updates.**
 - c. Additional Training. We understand and commit that if during our referral review, or any time prior to our adoption finalization, that if we think we need additional training, support, or resources in any area pertaining to our adoption process, parenting a child who was adopted, or any other area that would impact the success of our adoption, that we will inform America World and not proceed forward with finalizing the adoption until we're fully prepared.
 - d. Review with Social Worker. Prior to accepting a referral, we will consult with the person or agency conducting our home study and/or post adoption services. We understand that the person or agency may require that we complete additional training based on the background and needs of the referred child(ren) prior to approval. We also commit to maintaining ongoing dialogue with the person or agency on preparations that we should make for the health and well-being of the child(ren). By initialing below, we acknowledge we have consulted with the person or agency who conducted our home study or will be conducting post adoption services.

Initials: _____/_____

- e. Review of Medical Information. In the document entitled, "Referral Medical Review," America World provided us with a list of medical specialists experienced with international adoption. We hereby attest that we have reviewed this information and agree to consult a pediatrician to review all medical information on the referred child. We understand that the list of specialists provided by America World is not intended as an endorsement of any individual specialist. America World strongly encourages us to consult a pediatrician experienced in international adoption and/or examining medical information for children living overseas. We understand that it is our right to consult a doctor of our choosing to review medical information on the referred child(ren).

We understand that the child(ren) referred to us is living in a high-risk environment for exposure to illness and disease. Accordingly, we understand that the child(ren) may contract additional medical conditions between the time of referral and adoption finalization. We knowingly undertake this risk and will not hold America World responsible for any illness or disease contracted by the child(ren) between referral and finalization.

By signing this document, we further certify that we have reviewed the document entitled "Disclosure of Risk of Undiagnosed Medical Conditions" provided by America World. We understand that, due to differences in the quality of medical care in the child(ren)'s country of origin, the child(ren) referred to us may arrive with undiagnosed or misdiagnosed medical conditions. **We agree to release and hold harmless America World and its officers, employees, volunteers, and other agents from any and all liability for any inaccurate medical information, including any undiagnosed or misdiagnosed medical conditions.**

Initials _____ / _____

- f. Confidentiality of Child's Information. We have read and understand the document entitled "Referral Confidentiality and Privacy Overview" and agree to protect the confidential information of the child(ren) referred to us until our adoption is finalized.

Initials _____ / _____

- g. No Guarantee. As stated in the paragraph entitled "No Guarantee" in the original Program Agreement we entered into with America World, we understand that our decision to accept this referral is not a guarantee that the child(ren) will be placed in our family. Efforts to adopt children from a foreign country involve circumstances often beyond the control of America World, which may interfere with, delay, or disrupt the adoption process. We further understand that our execution of this agreement in no way guarantees the successful completion of an adoption within any specific period of time. **We agree to release and hold harmless America World and its officers, employees, volunteers, and other agents from any and all liability for any changes, delays, or disruptions related to our adoption.**

Initials _____ / _____

- h. Non-intervention. We understand that the adoption authorities and/or the adoption Court of the child's country of origin holds the ultimate authority to approve or deny us for the adoption of the

referred child(ren). We understand that America World will not intervene with the foreign country on our behalf in order to change the country's decision regarding the placement.

We further understand that the final decision regarding the issuance of a child's visa and approval of the child's immigration into the United States lies with United States Citizenship and Immigration Services (USCIS). Accordingly, America World will not intervene with USCIS on our behalf in order to influence or alter the decision of USCIS.

Initials _____ / _____

- i. Right to Reject. We have the right to decline this referral. Our decision to decline this referral will not result in prejudicial treatment of any kind by America World. The term "prejudicial treatment" includes, but is not limited to, retaliatory actions designed to increase our waiting time for a subsequent referral, deny us a referral we would otherwise qualify for, and/or any other action designed to delay or thwart our effort to adopt.

Notwithstanding the above, we understand that America World is obligated to make all placement decisions with the best interest of the child as its primary concern. Accordingly, America World retains the right to place our adoption on hold for adequate cause including, but not limited to situations where America World, in its professional judgment, believes that our family needs time to reassess our ability to parent an adopted child, and/or to provide our family with the opportunity to receive extra training or support services to adequately prepare for parenting a child by adoption.

Initials _____ / _____

- j. Finalization and Irrevocability of Adoption. We have reviewed the "Explanation of Adoption Finalization" document and understand that under the laws of Ecuador, our adoption will be finalized in Ecuador at a court hearing prior to meeting with the U.S. Consulate and applying for visas.

Initials _____ / _____

- k. Post Adoption. Following the immigration of our child to the United States, the government of, Ecuador requires that post adoption visits be conducted and reports submitted at regular intervals after the date the adoption is finalized. We acknowledge that we received a statement of the applicable time frame for submitting reports in the "Post Adoption Agreement," and commit to complying with these requirements and paying any and all applicable fees. We recognize that Ecuador may increase the number of required reports and we are committed to honoring this and will be responsible for the cost of completing additional reports. Currently the expectation from Ecuador is individual reports per child adoption at four, eight, twelve, eighteen and twenty-four months. Additionally, we understand that America World Adoption requires a self-report at one month post adoption.

Initials _____ / _____

- I. Duty of Disclosure. If any material or fundamental life changes occur between the time of referral and the finalization of our adoption, we will inform America World and our social worker of such changes in a timely manner. "Material or fundamental life changes" includes, but is not limited to, filing of criminal charges against any member of our immediate family who will reside or have substantial contact with the child, a change of primary residence, any changes in the health of a prospective adoptive parent, initiation of concurrent adoption process or placement of a child through concurrent adoption, and/or pregnancy regardless of stage. We understand that certain changes may require the completion of additional paperwork or placing our adoption on hold for a period of time. We understand that additional fees may also arise in connection with material or fundamental life changes.

By initialing below, we commit to disclose any and all material or fundamental life changes, as defined in the above paragraph, that occur between the date of execution of this agreement until the date our adoption is finalized. We understand that failure to disclose will result in our adoption being placed on hold until such information is provided to America World.

Initials _____ / _____

As of the date of this agreement, have you disclosed all material or fundamental life changes, as defined in the above paragraph, to America World that occurred between the execution of your initial "Program Agreement" and the date of execution of this Addendum?

☐ YES ☐ NO

Initials _____ / _____

If we checked "No," we certify that we will disclose all material or fundamental life changes to America World at the time we return this signed Referral Agreement. We understand that failure to disclose will result in our adoption being placed on hold until such information is provided to America World.

II. Acceptance/Rejection

NOTE: We understand that under §96.49(k) of the Hague Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption (Hague Adoption Convention), America World will not withdraw the referral until we have had at least two weeks to review the information, consider the needs of the referred child(ren) and our ability to meet those needs, and to obtain physician review of medical and descriptive information. We understand that this right is not absolute, and review time may be shorter where "extenuating circumstances involving the child's best interests require a more expedited decision."

Having fully reviewed the referral information provided to us by America World for (list child/ren's names, date of birth) _____ from Ecuador, we hereby:

- [] **Accept** this referral and move forward with the adoption of the above named child(ren). We have fully examined the many factors affecting this decision and believe that our home is a healthy place for the child(ren). We will, to the best of our abilities, provide a safe, healthy, and encouraging family environment for the referred child(ren). By accepting this referral, we also agree to pay the amounts listed in the "Referral Acceptance Fees Payment Form" we received, which is hereby incorporated into this Agreement by this reference.
- [] **Decline** this referral. By declining this referral, we agree to permanently delete and/or destroy any and all information on the child provided to us by America World. Respecting this child's basic human right to privacy, we will not share any personal, identifying, or other confidential information with individuals outside our Family.

We have reached this decision of our own accord after careful prayer and consideration. At no time were we coerced or otherwise pressured into coming to our ultimate decision.

Initials _____ / _____

- III. Electronic Copy. The undersigned agree that that America World can rely on a facsimile, scan, or other electronically produced copy of the original, signed agreement. The original signature is not required for the document to be valid.

This Agreement may only be amended by a written document duly executed by the parties.

America World Travel Release

I/We, _____, hereby acknowledge that I/we have voluntarily agreed to participate in an America World Adoption Association (hereinafter referred to as "America World") program that requires travel. Furthermore, I/we have read and understand the information contained in the Ecuador Travel Packet and will comply with the conditions listed therein.

I/We realize that travel is a risk and will provide America World a copy of the exact flight number and travel plan of each family member before I/we travels to and from the country. In the event that Family is required, or elects, to travel to the sending country for adoption-related purposes, the following provisions apply:

- A. America World cannot ensure the safety of Family when traveling in the U.S.A or overseas. All travel involves risks of crime and accident. Travel to a foreign country may involve additional risks and hardships, including but not limited to, exposure to illness or disease, unsanitary or unsafe food and water, inadequate or non-existent medical and dental services, and political instability. Family should consider all details before traveling overseas or considering a program that requires travel abroad.
- B. America World strongly suggests that Family travel with another adult when on an adoption trip. America World also advises against taking children under 14, persons with known health risks or those needing special assistance on adoption trips. Exceptions may include situations where the Family is required to be in country for a longer time period.
- C. Family will be solely responsible for paying all costs of any and all travel and travel activities of Family and the child including, but not limited to: airfare, airport taxes, exit fees, accommodations, meals, taxis, entertainment, guides, sightseeing, and travel insurance, delay costs, change costs associated with unknown delays and inconveniences. Family shall be solely responsible for obtaining and paying for their own passport and/or travel visa. Family agrees and understands that America World is in no way responsible to reimburse Family for travel expenses for Family or anyone traveling with Family, whether or not the adoption finalizes or not or regardless of number of trips to accomplish the adoption.
- D. America World may recommend travel agents, visa service companies, guides, airport greeters, or accommodations in order to assist Family in their overseas visit. Family acknowledges that any such travel agents, greeters, or guides that are not the agents or employees of America World are not and cannot be guaranteed or assure the cost, reliability, or availability of those arrangements.
- E. Family understand and agree as follows:
 - (1) That there are risks of travel.
 - (2) That "travel" includes, but is not limited to, traveling at a certain time, by way of a certain destination, or by a certain means of transportation.
 - (3) That the "risks of travel" include, but are limited to, war, terrorism, political or social conflict, illness including medical diseases or outbreaks, delay, inconvenience, and negligence of transportation providers, accidents, and medical emergencies.
 - (4) That Family assumes all risks of travel and shall not recover from America World for any expense, loss or harm resulting from the risks of travel.

- (5) That when America World notifies Family that it is time for the parents to travel to visit a child, America World is not making any representation regarding the safety or advisability of travel, and is not responsible for any expense, loss or harm resulting from the risks of travel.
- (6) That this Agreement shall be enforceable by and against the executors, administrators, heirs, agents, representatives, employees, and successors of the parties to this Agreement.
- (7) Family has been advised by America World to purchase travel insurance which may cover loss in the event of an accident or medical emergency including air-evacuation while on trip.
- (8) Family has been advised by America World to purchase fully refundable and changeable tickets in the event of delayed or cancelled travel.
- (9) Family has been advised that traveling alone is not suggested. It is very helpful to have the support and assistance of a traveling companion. Single parents should consider bringing a friend or family member with them while traveling abroad.
- (10) Family has been advised to check the status of the immunizations for every family member or friend who is planning to travel.
- (11) Family has been provided with the link to the CDC website and advised to speak to its local health department about recommended vaccinations. www.cdc.gov, traveler's health link.
- (12) Family shall check the CDC website for current information on outbreaks in the areas of child's country.

I/We agree to indemnify, release, hold harmless, and forever discharge America World, its Trustees, employees, and agents, and cooperating institutions and their offices and agents from any and all claims and expenses, including attorney's fees, for any injury, loss, or damage to personal property, including catastrophic injury or death, related to any travel associated with our participation in the America World program.

Ecuador Program Risk Disclaimer/Release

I/We, _____, fully understand that Ecuador is a new program for America World Adoption and the agency has yet to complete an adoption from Ecuador. The risk of working in a new program is something that I/we fully understand and choose to undertake.

I/We fully understand that, although America World Adoption Association [AWAA] has agreed to accept us into their international adoption program, our social worker may not approve our home study for an international adoption and/or the foreign country we are seeking to adopt from has full authority to deny me/us placement of a child or children based upon the details of our dossier.

I/We understand that the Ministry of Economic & Social Inclusion (MIES), i.e., the adoption authority of Ecuador, has certain written adoption requirements. I/We further understand that the review of a family's application to adopt can be subject to rules and/or cultural expectations that may or may not be explicitly written. I/We further understand that my/our family's case must be approved by both MIES and the judge presiding over my/our family's case in order for my/our family's adoption to be finalized.

Additionally, when applicable, I/we understand that America World will not intervene with the foreign country on my/our behalf to attempt to change the country's decision regarding placement and/or the U.S. government's decision regarding the placement.

Some additional areas of sensitivity with respect to an adoption from Ecuador include, but are not limited, to the following:

- a. **Past/Current Diagnosis of Mental Health Illness/Disorder:** I/We understand that if I/we have any past or current diagnosis of a mental health illness/disorder, including but not limited to anxiety, depression, or bi-polar, there is a risk of my/our case being denied.
Initials: _____ / _____
- b. **Past/Current Use of Mental Health Medication:** I/We understand that if I/we have any past or current usage of mental health medication, including but not limited to use of medication for anxiety or depression, there is a risk of my/our case being denied.
Initials: _____ / _____
- c. **Medical History of Cancer or other Serious Physical Illness:** I/We understand that if I/we have any previous diagnosis of cancer or other serious physical illness, there is a risk of my/our case being denied.
Initials: _____ / _____
- d. **History of Trauma, Abuse, Mental Health, etc.:** I/We understand that Ecuador requires psychological assessments for all prospective parents. If I/we have a history of a mental health diagnosis, substance abuse, physical and/or sexual abuse, or other trauma, this will need to be addressed as a part of that assessment as well as in the home study

process. There is a risk that this history could impact my/our adoption approval by our home study provider, AWAA, MIES and/or the judge for my/our case in Ecuador, and that there is a risk of my/our adoption being denied.

Initials: _____ / _____

- e. **Criminal History Background:** I/We understand that if I/we have any past criminal history, there is a risk of my/our case being denied.

Initials: _____ / _____

- f. **Multiple Divorces:** I/We understand that if I/we have more than two divorces per spouse in my/our past, there is a risk of my/our case being denied.

Initials: _____ / _____

- g. **Finances:** I/We understand that my/our total annual income or financial position must be deemed by the social worker, MIES and/or the judge presiding over my/our family's case as sufficient to meet the needs of the child. I/we understand that these individuals could determine that I/we do not meet their financial standards and there is a risk of my/our case being denied.

Initials: _____ / _____

Therefore, based on my/our history and/or current status, or for reasons unstated herein but based on other risks inherent with international adoption, many of which were disclosed to us in the Program Agreement, I/we understand that our social worker, MIES, and/or the judge presiding over my/our family's case may deny me/us a referral. I/We accept this risk and hereby release AWAA from liability if I am/we are denied an approved home study or a placement. We have read through the Program Agreement and accept the refund policies concerning withdrawing from their programs.

Initials: _____ / _____

I/We understand that based on these areas of sensitivity to adopt from Ecuador, there can be additional risks and/or unknowns concerning the length and cost of my/our adoption process, including but not limited to the following areas:

- a. **Age of Children in the Home:** I/We understand that if any of the children in the home are under the age of 4 years, there is a risk that it may take longer to be matched with a referral if maintaining birth order within the home.

Initials: _____ / _____

- b. **Pregnancy:** I/We understand that if I/we become pregnant prior to being matched with a referral my/our adoption process will need to be put on hold. I/We understand that pregnancy at this stage of my/our adoption process could significantly delay my/our process. I/We further understand that if I/we were to become pregnant after being matched with a referral, there is a strong likelihood that I/we will lose my/our referral.

Initials: _____ / _____

I/We fully understand that, although AWAA has agreed to accept us into their Ecuador Program, MIES has the authority to change their eligibility requirements or any facets of their adoption process at any time and I/we could be impacted by these changes, including but not limited to significant delays or changes to my/our adoption process. This may also result in changes to the process of working with U.S. Immigration including, but not limited to additional fees and paperwork. I/We understand this and hereby release AWAA from liability if my/our adoption process is impacted in any way by changes Ecuador may make to their adoption process

during the course of my/our adoption.

Initials: _____ / _____

I/We understand America World cannot predict how long the adoption process will take, including but not limited to how long it will take to receive a referral and receive approvals from the government entities involved in the adoption process. I/We hereby release and forever discharge America World from any and all liability resulting from any delays in my/our processes.

Initials: _____ / _____

I/We understand that the required length of stay in Ecuador for one or both parents is estimated to be 6-8 weeks, but it could be shorter or longer, as determined by Ecuador. America World has no control over the length of stay in Ecuador.

Initials: _____ / _____

I/We understand that should I/we be required to suspend my/our adoption process at any stage of the adoption, due to any of Ecuador's policies outlined on this disclaimer form or for any other reason, I/we will likely incur additional costs to our adoption process. These could include but are not limited to the following: home study updates or amendments, updates with immigration, home study or dossier criminal background checks, re-ordering documents needed for the dossier, medical exam costs to update medical information, and costs associated with authenticating a dossier.

Initials: _____ / _____

Having been fully informed of the risks associated with pursuing an adoption from Ecuador as well as those associated with entering into a new program with America World, I/we freely accept such risks and hereby release and forever discharge any and all rights, claims, demands, and/or causes of action, whether arising now or in the future, that I/we may have against America World and/or any of its officers, directors, employees, contractors, volunteers, or other agents resulting from delays in our process or the failure of our adoption.

Initials: _____ / _____

By signing below, I/we acknowledge that this waiver is legally binding and is incorporated by this reference into the Program Agreement that I/we signed with America World.

Privacy Notice

NOTE: PLEASE REVIEW CAREFULLY. This notice describes how your medical information may be used and disclosed and your rights regarding this information. Our policies on this matter were approved by the America World Board of Directors on 8/31/04 and are effective upon receipt of this notice. The title "America World" or "we" refers to all our staff (contract and overseas) programs and sites that directly serve clients. The terms "you" and "your" refers to you the adoptive family and/or extended family or friends whose medical information is submitted to AWAA.

America World understands and respects that medical information is personal and should receive extra care and special treatment. We uphold the value of confidentiality and are committed to maintaining the privacy of your protected health information (PHI) which includes your recorded medical and/or mental health status that is submitted to America World. Such information includes, but is not limited to physical exams, home study and post placement reports, applications, psychological evaluations, and travel documents (as well as information reported to our staff verbally or by other means). To provide quality care and abide by international adoption laws, we keep PHI information both in our physical files and electronically in our database. The purpose of this notice is to explain how the PHI is used for service delivery, to whom it is generally disclosed, and your rights regarding the PHI. In all cases, the minimum amount deemed necessary of PHI will be used and disclosed by America World staff.

We commit to abide by the terms of this Privacy Notice; however, we retain the right to change the terms of our notice at any time. Any future changes will be reflected in future Privacy Notices and will be distributed to all clients whose PHI we are maintaining at that time. Upon your request you can receive a current copy of the Privacy Notice via e-mail, mail, or fax by calling our office or simply asking for one at the time of your next office appointment. The notice is also posted on our website at: <https://awaa.org/adoption-links/sample-documents/>.

USE OR DISCLOSURE OF PHI

Since America World does not provide direct health care for any of its clients, we will not be using your PHI for treatment, payment of treatment or health care operation purposes. America World Staff (including contract social workers and overseas facilitators) may only use and/or share your PHI to conduct daily operations involving your international adoption process. Your PHI may be used and shared by America World Staff for the following reasons and to the following entities:

1.) International Adoption Government Agencies and translation services - In order to approve you for an international adoption and identify a child(ren) legally available for adoption you must submit PHI to specific international government agencies and their accepted translation services. This information is submitted to us by you and then to the foreign country with the knowledge that this government entity will have full control of this information. America World and the US government have no control over the PHI given directly to foreign central authorities or the foreign translation services mandated by the foreign governments. Regardless of the outcome of your adoption process you may or may not be able to get back your dossier and PHI information.

2.) United States Citizenship and Immigration Services (USCIS) - In order to bring a foreign-born child into the United States the USCIS must grant you approval in the form of an I-800A or I-800. You or your social worker must submit a finalized home study report to receive this approval. If this approval is delayed in some way your social worker or family coordinator may be contacted by USCIS and disclose necessary PHI to the USCIS staff as requested.

3.) State Governments - If a married person travels without their spouse, he or she may need extra documentation for the US Consulate to process the child's citizenship paperwork. To obtain these documents, a completed home study and the medical information of the adopted child/children will need to be provided to the proper state government authority. Additionally, in order for America World to hold a Child Placing License, we must abide by state laws and allow designated government workers to review our files on a regular basis.

4.) Center for Excellence in Adoption Services (CEAS) - To complete the Hague accreditation process and retain accreditation, America World must undergo a site visit and subsequent site visits in which files will be reviewed.

5.) Travel Arrangements - Occasionally America World staff must share PHI with a travel agency, airline, or hotel in order to accommodate a special health need during your trip to the foreign country.

6.) Physicians and Medical Staff – America World staff will sometimes assist families in obtaining test results and correcting health forms. This requires the use and disclosure of PHI to whomever the client is using to complete their physical exams. Additionally, America World staff may consult with medical staff concerning referred children's medical conditions. In both situations the family is aware or has requested that the coordinator get involved and has approved the communication with the aforementioned medical professional.

7.) America World Families - It is America World policy not to give out PHI or our clients' contact information to inquiring persons or to confirm/deny a specific family is a client without first getting permission from that specific family. Additionally, America World clients are not allowed to view electronic or paper files of other families. However, in order to help facilitate support systems, your name and e-mail address may be given upon your consent, to other America World families who are in your "Travel Group" (traveling with you to the foreign country). If you do not wish for us to give out this information, please contact your family coordinator. Given the size and nature of our agency, it is possible for other families to deduce PHI details (a family may learn of another child's special need in their travel group). However, we do our best to protect the privacy of all our clients. In cases where a health concern may present a threat to others in your travel group, PHI information may be shared for the other members to protect themselves and their families. For example, all travel group members will be notified if a child in their travel group is infected with chicken pox at the time of travel.

8.) Events and Activities – America World may use your demographic information to contact families to inform them of special events and activities that we think would be of interest to them according to their specific PHI (reunions, seminars, training, fundraising events, forums, support groups). If you do not wish to be contacted for special (non-required) events and activities, please inform your family coordinator.

NOTE: America World may sponsor events at which families may take photographs or videotapes of their children. It is possible they may capture your family in these photographs and videos as well and these images will remain their property. However, America World does

require a separate signed public relations release form for any images used for agency purposes.

9.) Advocacy – America World may have shared specific PHI in the advocacy efforts of certain children. These efforts may include advocacy on America World's website in addition to other groups which advocate to find families for children from China. Information provided during advocacy does not include full disclosure of the child's entire medical history or date of birth or location, and children are given a pseudonym for advocacy purposes when posted publicly. Due to adoption laws requiring a child's file information to be shared, a child's file may have also been provided to another adoption agency for the purpose of review and/or provided to another family for review at any given time while the child's file is available for adoption.

The above information details the most common uses and disclosures for PHI to provide our service of international adoption and is usually used and disclosed with the knowledge and request of the client. They do not include every circumstance, but the most common ones. If use and disclosure of PHI is needed outside the realm of international adoption services, an authorization form signed by the individual involved is required.
